PROFESSIONAL SUMMARY

Frontend Developer with 1+ years of professional experience building responsive, production-ready interfaces using React.js, Next.js, TypeScript, and modern UI frameworks. Experienced in reusable component development, REST API integration, responsive and cross-browser implementation, performance tuning, and frontend work across AI healthcare, B2B travel, AI assistant, and multilingual CMS products. Comfortable contributing to basic Java backend tasks when required.

TECHNICAL SKILLS

Core Frontend

React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3

UI & Styling

Tailwind CSS, Material UI, Ant Design, Responsive Design, Accessibility, Cross-Browser UI

Integration & Testing

REST APIs, Postman, Chrome DevTools, UI Testing, Debugging, Performance Optimization

Tools & Additional

Git, GitHub, ClickUp, Linear, Slack, Firebase, Internationalization (i18n), Agile Collaboration, Java (Basic)

PROFESSIONAL EXPERIENCE

Frontend Developer

Sep 2024 - Present

Droidor, Lahore

- Build responsive, production-ready interfaces using React.js, Next.js, TypeScript, Tailwind CSS, Material UI, and Ant Design.
- Developed WizVend's multilingual marketing website and custom CMS for managing hero content, blogs, resources, service FAQs, and leads.
- Contributed primarily to the frontend of Basata's AI healthcare platform, supporting referral, fax, and call-centre workflows, with minor Java backend contributions.
- Helped develop AetherBot's web interface and embeddable AI assistant widget for multilingual customer support.
- Built frontend modules for Falcon, a multi-tier B2B travel platform covering inventory, bookings, wallets, and role-based workflows.
- Integrate REST APIs, create reusable components, and improve responsiveness, cross-browser compatibility, performance, and UI reliability.

KEY PROJECTS

WizVend - Multilingual Website & Custom CMS

Designed and developed a multilingual marketing website and secure custom CMS enabling non-technical staff to manage hero content, blogs, resources, service FAQs, gated downloads, and leads. Implemented SEO-friendly internationalized routing, country-specific content, custom form APIs, and responsive UI.

Next.js | TypeScript | Tailwind CSS | REST APIs | i18n

Basata - AI Healthcare Operations Platform

Contributed primarily to frontend interfaces for an AI-powered healthcare operations platform that automates referrals, faxes, and call-centre workflows. Integrated responsive UI modules with backend services and contributed to a limited set of Java backend configuration and integration tasks.

React.js | Tailwind CSS | REST APIs | Java (Basic) | System Configuration

AetherBot - AI Assistant Platform & Embeddable Widget

Contributed to the frontend of a SaaS AI assistant platform and helped develop the embeddable widget used on client websites. Supported responsive interfaces, API-driven content, and a multilingual customer support experience available around the clock.

React.js | Next.js | Tailwind CSS | REST APIs | Responsive Web Design

Falcon - Enterprise B2B Travel Management Platform

Built responsive frontend modules for a multi-tier travel platform connecting DMCs, Master OTAs, and Slave OTAs. Worked on inventory, bookings, package builder, wallets, accounting, reporting, reusable components, REST API integration, and role-based workflows.

React.js | Next.js | TypeScript | Material UI | Tailwind CSS | REST APIs | RBAC
