Configuration-driven workflows
Firebase

Strengths

Responsive Design
Reusable UI Architecture
Problem Solving
Agile Collaboration

PROFESSIONAL EXPERIENCE

Frontend Developer

Sep 2024 – Present

[Droidor, Lahore](#)

- Developed responsive UI components using React.js, Next.js, MUI, and Tailwind CSS.
- Integrated REST APIs with backend and QA teams.
- Performed UI/UX testing, debugging, and cross-browser compatibility improvements.
- Built production-ready modules for a large-scale travel management ecosystem.
- Contributed to Java backend logic and configuration-driven workflows on a healthcare AI platform.

KEY PROJECTS

WizVend – Amazon Growth Agency

Full-Stack Developer

Designed and built a full-service Amazon growth agency platform from scratch — service pages, case studies, multi-language routing, and a conversion-focused, fully responsive interface.

Next.js • Tailwind CSS • SEO • i18n • Responsive UI

Basata – Healthcare AI Platform

Junior Developer

Contributed across the stack on an AI platform that automates healthcare back-office work (referrals, call triage, EHR-integrated workflows) — Java backend logic, frontend UI, and system/workflow configuration.

React.js • Java • Configuration-driven workflows • REST APIs

AetherBot – AI Services Platform

Frontend Developer

Built the frontend and client-facing experience for an AI platform offering AI assistant services, technical consultancy, and custom development.

React.js • Tailwind CSS • Responsive UI

Falcon – DMC Connect Portal

Frontend Developer

A full-scale B2B travel automation platform for Supplier DMCs, Master OTAs, and Slave OTAs. Includes inventory, custom package builder, wallet system, booking workflows, and reporting dashboards.

React.js • Next.js • TypeScript • Material UI • Tailwind CSS • REST APIs
